

LARAVEL SITE

Project Overview :

Blog site for travelers

Design Specifications :

Colors:

#FF0000(Bright Red) : Blue is often used for call-to-action buttons or links because it can be perceived as positive and encouraging. It can encourage readers to take action, such as subscribing to your blog or sharing your content.

Typography:

inter (sans-serif): This font used a geometric sans-serif typeface, known for its clean, modern look and excellent readability, making it a versatile choice for various design projects

Layout and Grid System:

Columns: 12, Margin: 150px, Gutter: 20px

Design Tools:

Figma, Photoshop

Development :

This website was developed with Laravel MVC framework.

Application Features :

1. CRUD Operation on blogs.
2. Admin: CRUD Operation on blogs and handle all the other blogs status

Application Flow:

1. **Guest Mode(User without Login)** : Guest user can see all blogs and If they click my blogs or write a blog button, it will redirect them to a login page.
2. **Authorized User** : Once an User logged in with valid credentials, they can start writing blogs and see their blogs separately and edit or delete them.
3. **Admin** : Once an Admin logged in with valid credentials, they will get redirected to admin dashboard where they can also upload blogs and handle all the other blogs status
